

VERIFIED RADIO SUPPORT

Eight stations approve If You Let Me for airplay.

A documented snapshot of independent online-radio support for JRH's original album recording, preserving the supplied One Submit approval evidence without representing every approval as a completed broadcast.

8

UNIQUE STATION APPROVALS

01

DOCUMENTED COMPLETED PLACEMENT

Radio X5 Stereo · September 16, 2026

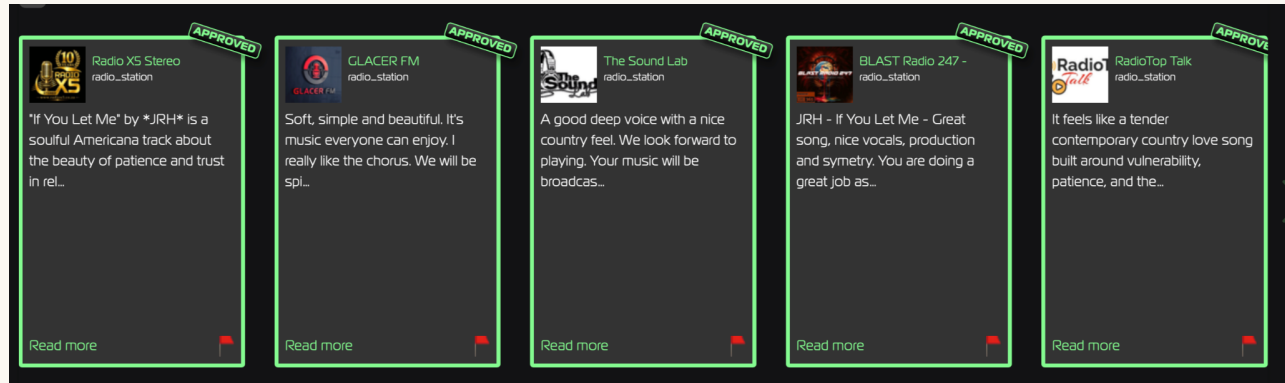

01

DOCUMENTED FUTURE PLACEMENT

Rising Star Underground Radio · September 23, 2026

Five station approvals

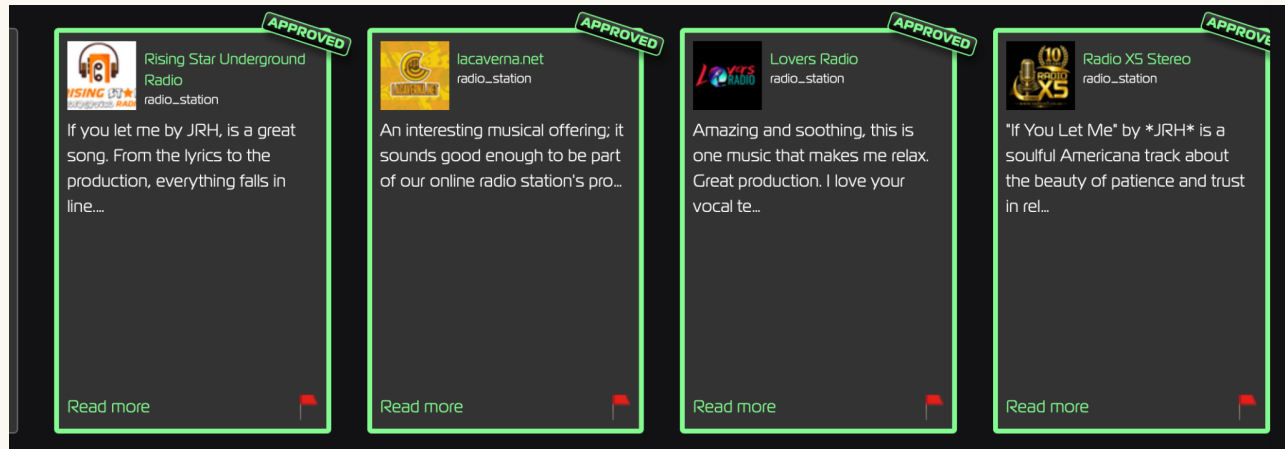

The supplied One Submit dashboard capture shows approval cards for Radio X5 Stereo, GLACER FM, The Sound Lab, BLAST Radio 247 and RadioTop Talk.

The overview cards contain shortened review excerpts. This archive treats the visible approval status as verified while avoiding claims about broadcast dates that are not present in the capture.

Four cards, three additional stations

The second dashboard capture shows Rising Star Underground Radio, lacaverna.net, Lovers Radio and a duplicate Radio X5 Stereo card. Radio X5 is counted once, producing eight unique stations across the two captures.

Rising Star Underground Radio separately supplied a September 23, 2026 placement window of 1:00-2:00 a.m. America/New_York. One Submit displayed GMT-05:00; New York normally observes daylight time in September, so the local station window is preserved without independently correcting the platform's offset.

What the evidence proves

The supplied dashboard captures verify eight unique approvals for the original album version of If You Let Me. Approval is not treated as completed airplay until the scheduled broadcast has occurred or separate proof is available.

Radio X5 Stereo	Approved; placement documented for Sep. 16, 2026, 15:00-16:00 Africa/Johannesburg
